2b. Please comment on your impressions of CROATIA based on your participation in this LTT activity (e.g. people's, traditions, landmarks, public organization, social activities, public facilities, lifestyle etc.) .

19 responses

great

Good

Good , love the forest and activities

Interesting

I like it a lot, and some activities was more interesting

The weather, meals, education, lifestyle, money...

It was nice

It is beautiful

I think it is a great city, with a lot of culture and a lot of vegetation, I love its customs, food and traditions.

it's a good country, I was very happy to participate in this experience

Here, you can see a lot of green like trees, flowers and everything. They have more the environment than Spain.

J'ai beaucoup apprécié la culture et les visites la Croatie est un pays magnifique

It is very good

Great people , well organized education system

The culture much more different than my country's which is a really good and interesting thing ,also people here are extremely nice and friendly even to foreigners like me ,about the traditions ,landmarks and public facilities are really interesting and as I said way more different than ours there are beautiful places to go sightseeing as well as just rest at a cafe which made me fall in love with this country

i absolutely fell in love with balcan and croatian traditions. i have never been so welcomed by strangers. i already felt home within the first 2 hours and i am so sad that i have to leave tomorrow. this trip not only educated me in terms of Arts4Future, but above all culturally and socially. i am glad to be a part of this project!!

very friendly and caring people, delicious food, not everything looks beautiful but you can see the history of the country through its scenery, the school system is very different and i'd say better than ours, the lifestyle and the culture is very chill and down to earth but still fun.

Croatia is a ver nice town

Nice

3. Croatian School / Croatian Participants (students and teachers)

3a. Did you change opinion about Croatian school (Gospodarska škola Varaždin), Croatian students and teachers, due to your participation in this LTT activity ?

19 responses

3b. Please comment on your impressions of the Croatian school and Croatian participants based on your participation in the meeting (for example you may comment on Croatian school's facilities, organization and/or Croatian participants' attitude to you, the atmosphere among students and/or teachers, etc.).

19 responses

excellent

Good but better in my country

Idk

Nice

This school is better than our school in Spain, and the people are more quiet and better, they do not interrupt.

The students have more freedoms and the teachers are very patient.

I don't know

The people are very nice and guest friendly

I think that in this school there is more freedom and it is very easy to study and learn

students and teachers are very nice and welcoming

Here the teachers let the students use their phones inside the school. In Spain if the teachers see you using the phone they take it.

L'école est immense et il y a beaucoup de couloir et de salle mais elle reste très vaste et magnifique

I like the system of Croatian school

L

Gospodarska škola in Varaždin is a really nice and beautiful place for kids to study what they want. Also about the teachers and students, the teachers were really helpful with kids who had a problem but also really nice to everyone about the kids now they were amazing, friendly, welcoming, really nice people and I personally had a great time with each and every one of the kids I've spent my time with. Also something I'd like to add is the fact that we've bonded with every kid from every country making us really close and bonding us a lot more than we might have thought of which is really good because that wouldn't have happened if the kids reacted otherwise.

The pupils of the project were mostly extremely friendly and open. They were more committed than other pupils from different countries. I never felt lost in class. The teachers were also really welcoming and helping. Thank you!!

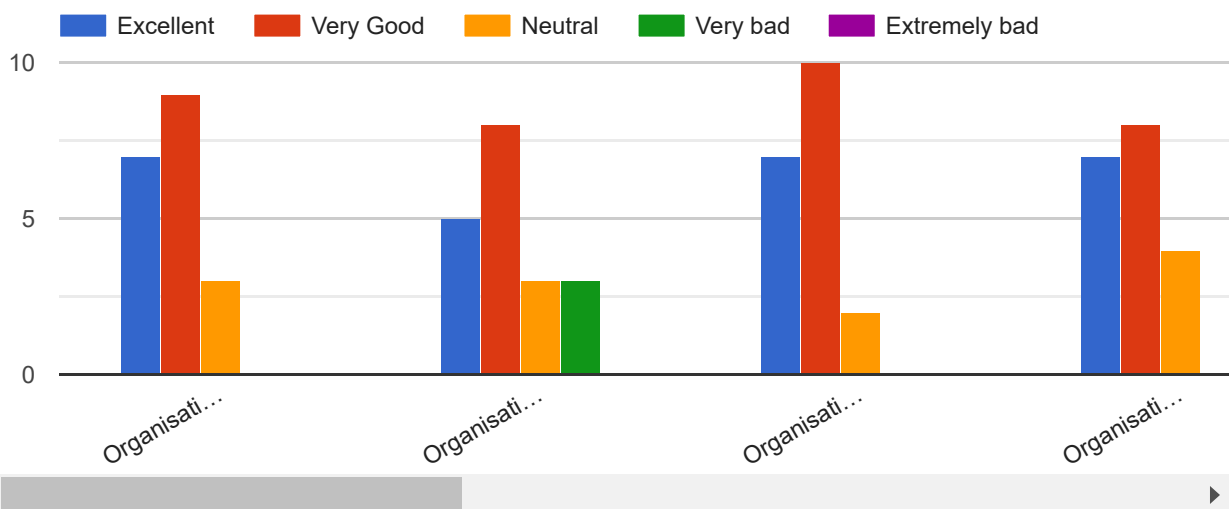

The school has a good atmosphere, i like the couches and the shop and i like how students and teachers communicate with eachother. The croatian students were the friendliest in the projekt and they cared very much about the people they were hosting.

Is impresionant

The teacher and the school was very pleasant

4. Preparation and organisation of project activities done by the host school

4a) Evaluate the arrangements, preparation and organisation done by the host school

4b. Comment on your experience of being hosted in a Croatian family?

19 responses

4c. Please comment on your impressions of being hosted in a Croatian family.

19 responses

excellent

I missed my home

Good they are so kind

I like the family, but the girl doesn't speak to me a lot. We are very shy, I would have preferred to be with one of the students who came to Spain because there was more trust.

Very fun, educational and it's something new that was scary at first.

It was nice to learn more about how it is to live in another country

They cook very well and try their best to please you

They have treated me better than I expected, very well, very kind family and thank you very much, I have been better than in my country. haha

the family was really very nice with me even if at the beginning I was a little shy. I hope to be able to see them again

They are so simpatic and servicial, i have a excelente impresion .

Surprise et interressé

Interesting thing

Croatian families are so warm and sweet. They were taking a good care of me .

My host family was really kindhearted,welcoming and above all loving towards me even if they couldn't speak English .Also they were always really happy and really funny .My favorite thing about my host family is the fact that we had really good conversations even throughout translation. They were really an amazing host family to me which made my stay way better then it already was

they feel like a second family, i don't want to go home. best exchange experience i ever had.

My host family was really really nice, they cared about me and they made me feel welcomed and comfortable it was a really nice experience to learn how other familys in other countrys live.

Excelent

Good

5. International cooperation during the meeting

5a. Please comment on your impressions of the international cooperation during this LTT activity in Croatia (for example: Have you felt comfortable working in a team; Have you made friends from partner countries?; Have you collaborated successfully with peers? Have you succeeded in communicating efficiently?, etc.)

19 responses

yes

I have made new friends

Good

I like it, but there is a few time so ther isn't time to make friends, when they come to spain, the experience was better. And the croatian are more quiet so i only I have spoken with the Spanish people.

I have made several friends and with some I have not gotten along so well

I have felt comfortable working in a team

It was an overall positive experience!

At first I didn't integrate much and I was alone in a corner, but then everything went very well and they were very kind, we became friends and had a lot of fun, especially on the bus.

every country are kind and welcoming

I don't made a lot of friends but normally is difficult for me make new friends.

J'ai beaucoup aimé être avec cette famille d'accueil mais la communication avec la mère était un peu compliqué je l'avoue car elle ne parle pas l'anglais elle parle que le croate donc ça a été un peu compliqué mais sinon ça a été avec la fille dont Karla ça a été une super expérience et si je pouvais je recommencerais

I have made many friends from other countries

All people were open and Friendly so I had the chance to talk and make a conversation with those .

Besides the fact that I was barely with my friends from the Greek team in groups I managed to make so many more friends from partner countries but especially the Croatian kids . I've communicated efficiently with all of the kids from the program which made it even better to make new friends and easier team works

i have made a lot of croatian friends. except french and spanish pupils i talked to a lot of different partners.

I felt comfortable working in the team but i think not everyone did because there were some people who didnt talk at all. I made friends with some croatian students but feom the other countries not so mich because they were alsways in there own groups and didn't really try to make friends with others. Collaborating and communicating with others was a little hard because some of the others couldnt speak english at all or just a little bit.

Perfect

It's comfortable and I made new friends

6. Strenghts and weakness of Croatian LTT activity

6a. What did you like most about this LTT activity in Croatia? Write down the best points, in your opinion.

19 responses

making new friends

Zagreb, the national park

That was so good

National park

The landscape is very beautiful.

Sometimes i like speak in english.

In the school the people can use the movilphone.

The best were the wood, pottery and metal workshops. Very educational and fun

Visit plitvice

The trip to Zagreb

What I liked the most was the food, the vegetation, the people and the temperature,

it allowed me to meet other people and to know new countries

I like so much the activities of plastic, metall and ceramic. It so interesting.

J'ai beaucoup aimé quand on a travaillé quand il fallait travailler en groupe donc sur la LTT mais sinon j'ai beaucoup apprécié et voilà

I liked trip to Plitvica lake

The tour at the sightseeing

The walks that we went to

Commucating with people

My personal favorite part about this program was definitely the tour in the plitvice lakes but also was the hanging around with our hosts part because it made me see the lifestyle that the real Croatian kids my age have which was something you don't get to see when you come as a tourist in a foreign country

my host family, zagreb and plitvice and our guide, the workshops on friday

The reservart and zagreb was the best

The lake

6b. What did you dislike during this LTT activity ? Write down the weakest points, in your opinion.

19 responses

Nothing

everything was great

Free time

Idk

The guide, i don't like hear someone speaking all the time.

In the morning its very cold and in the afternoon its very hot.

The other people are bery shy, so the only country that was talking was spain, and we can't meet friends.

The search for the QR codes was not a very good experience. Hardly anyone spoke to each other in the groups.

The qr code hunt was not so funny

Some hosts didn't treat their guests friendly

There is nothing that I did not like.Except they smoke a lot in Croatia.

there is nothing i didn't like

I don't like the tresaire haunter.

Le fait de communiquer avec les élèves est très compliqué car certains sont un peu froid d'autres vont être peu bavards donc discuter quand on est en groupe avec les autres élèves c'est un peu compliqué mais sinon ça s'est très bien passé j'ai beaucoup kiffé et à recommencer encore une fois

The weather

I liked everything

I don't have anything that I disliked everything was really amazing except the fact that two girls from my team got sick

some people who were not open to commit (but just some!) and often the puplic toilets can't be locked haha

The weakest points were the interactions with the other students

8/10
